Open positions

- **Engineering**
Backend Engineer – Platform Team
7 x Open Engineering Positions
- **Commercial:**
Partner Manager
Customer Success, Publisher
- **Customer Care:**
Tech Support

ChronosHub

Farewell to Marcus

Marcus is wrapping up his time with us on January 28 as he prepares to begin his full-time internship at WPP Media in February.

There will be cake in the kitchen during the day, so grab a slice and swing by his desk on the 28th to say goodbye before you head out.

And if you're free, Marketing will head to JOJO at 16:00 for a farewell drink — everyone's welcome to join!

Let's give Marcus a warm send-off and wish him the best on his next steps.

February In-Person All Company Session

Logistics:

- 9am-1pm CET February 4th and 5th, sessions in the office, lunch in the Canteen
- (Optional) Happy Hour, games & dinner Thursday night @ Bryggerens

Day 1: Who we are, what we do, and how we do it

- Mission, Vision & Strategy
- Cultural Values

Day 2: Who are our customers, and how do we live up to our (CX) ambitions?

- Customer Profiles & Experience
- Cultural Intelligence

Product & Engineering Update

Commercial Update

Commercial Update

Strong Reception to Pre-submission Strategy:

- IEEE
- AIP
- IOP
- APS
- PNAS
- AUP
- MAHC

Value Propositions:

- Technical Freedom
- Author Experience
- Cost Savings

Takeaways:

- Sound Strategy
- Market Desire
- Urgency

APE conference 2026

**The industry is at a turning point
- Time to build what's next**

The way academic research is **reviewed**, **published** and **shared** is changing fast. The current system is under pressure from things like...

- New technology with AI
- Geopolitical pressures
- Open access business model challenges
- Growing risks around fake or manipulated papers
- A few dominating tech platforms

The current system needs to be rebuilt – not just patched.

Hot topics...

1. AI in Publishing, use-cases like

- ⊕ Manuscript triage and quality check
- ⊕ Image manipulation and fraud detection
- ⊕ Reviewer matching
- ⊖ AI should support editors, not replace judgement
- ⊖ No appetite for AI making final YES/NO-decisions

2. Research Integrity & Trust

- Paper mills and fraudulent submissions
- Manipulated peer review

Growing expectation that publishers must invest in integrity tools and share intelligence across the industry. Trust is a core product feature.

Hot topics & conclusion

3. The Future Research Ecosystem changing

- From journal-centric to workflow-centric
- From static PDFs to dynamic objects
- From standalone products to ecosystem
- From few dominating platforms to partnerships

CONCLUSION 🏆

The winners will be those organizations that can:

- Control critical research workflows
- Build responsible AI into their platforms
- Demonstrate integrity, security and governance
- Operate as part of an integrated ecosystem

Comms project

The challenge:

Many know our brand. Fewer know our superpowers 🧙

Teamning up with **TBI Communications** to assist us with the storytelling:

- A clear and simple messaging framework
- A 2026 content & media plan that makes us visible in the right places

Why This Matters

- Prospects & partners understand ChronosHub faster
- Sales conversations get easier
- Stronger position with publishers
- More visibility in the industry

Office Updates

New office details

INTERNET / WIFI

Name: ChronosHub-Internal

For guests: ChronosHub Guest

The password for both are stored in Keeper.

LIGHTS

In the new office space, all lights in the meeting rooms, bathrooms, and along both sides of the office are operated **manually**.

The lights in the central areas - including the entrance, hallway, kitchen, and copy/supply room, are operated **automatically**.

CLEANING

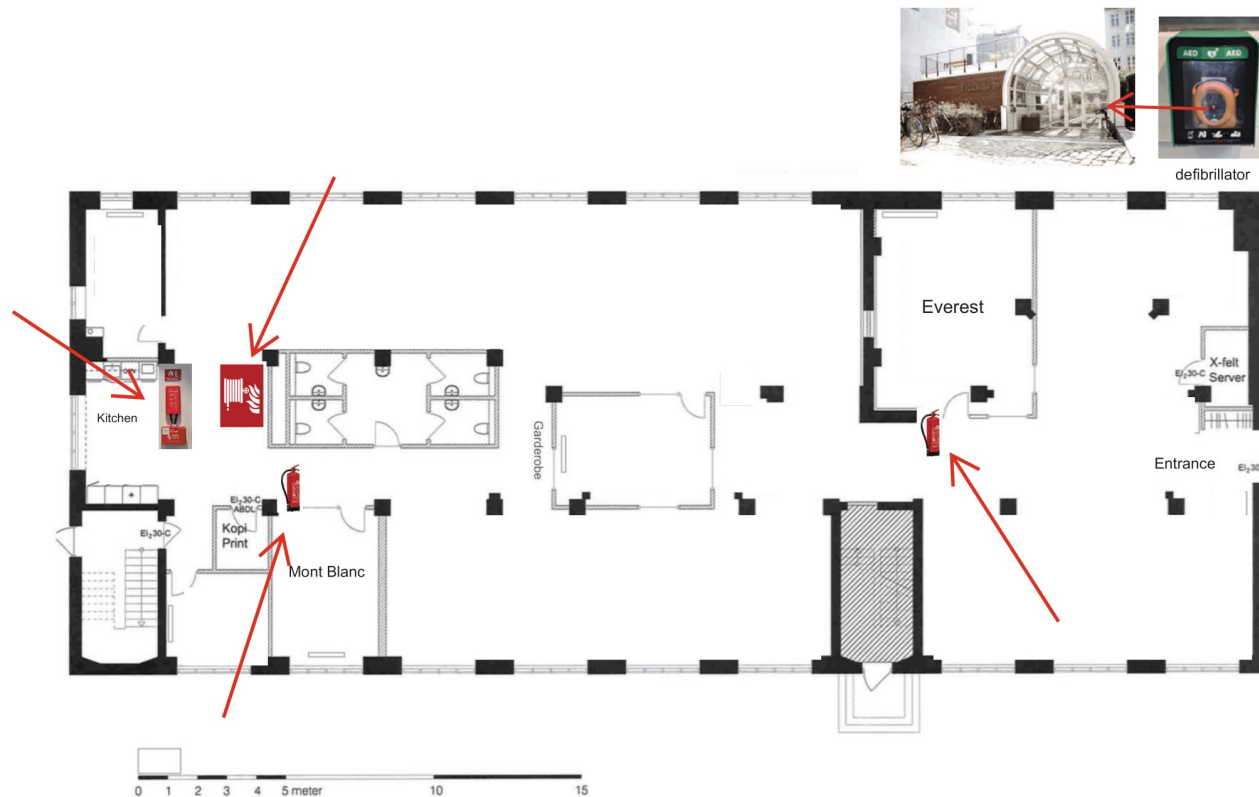

Due to the increased number of people and the larger office space, we now have daily cleaning. They usually comes in after 18:00.

INTERIOR AND DECORATING

There's still plenty to set up and decorate over the next couple of months. We will prioritize the meeting rooms (Mont Blanc & Everest). Christine will tell you more in a few slides.

Fire Equipment and defibrillator locations

Alarm system

Start date: EOD today – 22. January 2026

Panel by the front entrance (ONLY)

Pin in Keeper

"How to" guide on the Intranet

The cameras only record when the alarm is activated!

If the alarm goes off by accident, call Camilla immediately (+45 25777508) so she can verify it with the alarm company.

Conference Rooms

Five Conference Rooms and two Mute Boxes

Everest (16)

Fuji (6)

Kilimanjaro (10)

Hekla (6)

Mont Blanc (8)

Mute Box Left (free to use)

Mute Box Right (can be booked)

Book as usual or use the screen outside the meeting room (if available). Use the manage button to free up the room.

Please take into account the number of physical attendees when booking a room.

Keep the Conference Rooms clean and tidy

Please make sure to leave the conference rooms clean and tidy. Push in the chairs, clear the whiteboards, remove empty cups and cans etc.

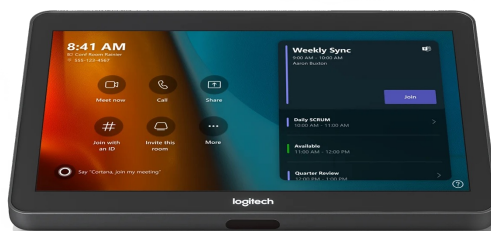

If you're the last person using the room for the day, please also turn off the TV and the lights.

Meeting room and new equipment

All in one cameras

The cameras has built in sound and microphones

Control Tabel

Used to join and control meetings

Status Screen

Placed outside the rooms.
Shows when and who have booked the room.

Best practices for hosting hybrid meetings in new meeting rooms

Join on your laptop, not just the big screen

Make it easier for remote attendees to see your face and feel like they're part of the discussion (and not simply observing the discussion)

Keep an eye on raised hands and chat messages

Especially important during larger meetings

Speak clearly to the room, not the person beside you

To ensure mics pick up what you're saying. The mics are focused so turning your back is like pressing mute.

Check in with remote attendees

Make sure all attendees can see, hear, and effectively participate.

Office Furniture

Scheduled

Curtains: Installation planned for weeks 7–8

Acoustic panels in work areas: Completion expected in week 9

Upcoming

Meeting rooms: To be finalized soon

Acoustic panels in meeting rooms: Not ordered yet, awaiting final decisions on furniture

Plants: Arrival and placement soon

Pending Budget Allocation

Lounge area: Will proceed once the next funding round is approved

People & Culture Updates

Role descriptions

Why?

- A recurring topic
- Alignment on expectations
- Clarity and transparency of role for each individual and cross-functionally
- Dynamic document, used during development talks to make changes in role and growth more visible

When?

- Launching next month

Appendix 1 to the Employment Contract – Role description

§ 1 Primary tasks and responsibilities

Title	Title
Reports to	Manager title
Department and team	Department and team title
Responsible for the following employees	If no direct reports just put N/A
Areas of responsibility	Main reason why we have this role
Main tasks	*
Other tasks	Ad hoc tasks within xxx
Most important stakeholders	
Valid from	October 1, 2025

Code of Conduct

Why?

At ChronosHub, we want to build a workplace where people feel safe, respected, and able to do great work together.

The Code of Conduct will make our shared expectations explicit - not to list rules for every situation, but to describe what *good looks like* in practice.

Code of Conduct – social events & parties

Social events are an important part of our culture, and we encourage people to connect and have fun together.

- Guests are welcome at Friday bars, but remember they are your responsibility. Social events for all-company sessions are for CH employees only.
- Sleeping at the office is not allowed. Please make sure you plan accordingly, so you're able to get home.
- Let's be mindful of each other's boundaries.

Any questions?

Thank you!
