

ChronosHub

March 2026

Virtual All-Hands Meeting

March 26, 2026

Agenda

- 1 Staff Updates
- 2 Product & Engineering Updates
- 3 Commercial & Marketing Updates
- 4 People & Culture Updates
- 5 Board of Directors Update

Staff Updates

WELCOME!

Kent Appelby joins us as Partner
Manager, Commercial team

WELCOME!

Barbora Macháčková joins as Content
Writer Student Assistant, Marketing team

Open positions

- **Product**
Agentic PM
- **Engineering**
Agentic SRE, QE, Enabler, EvalOps,
...

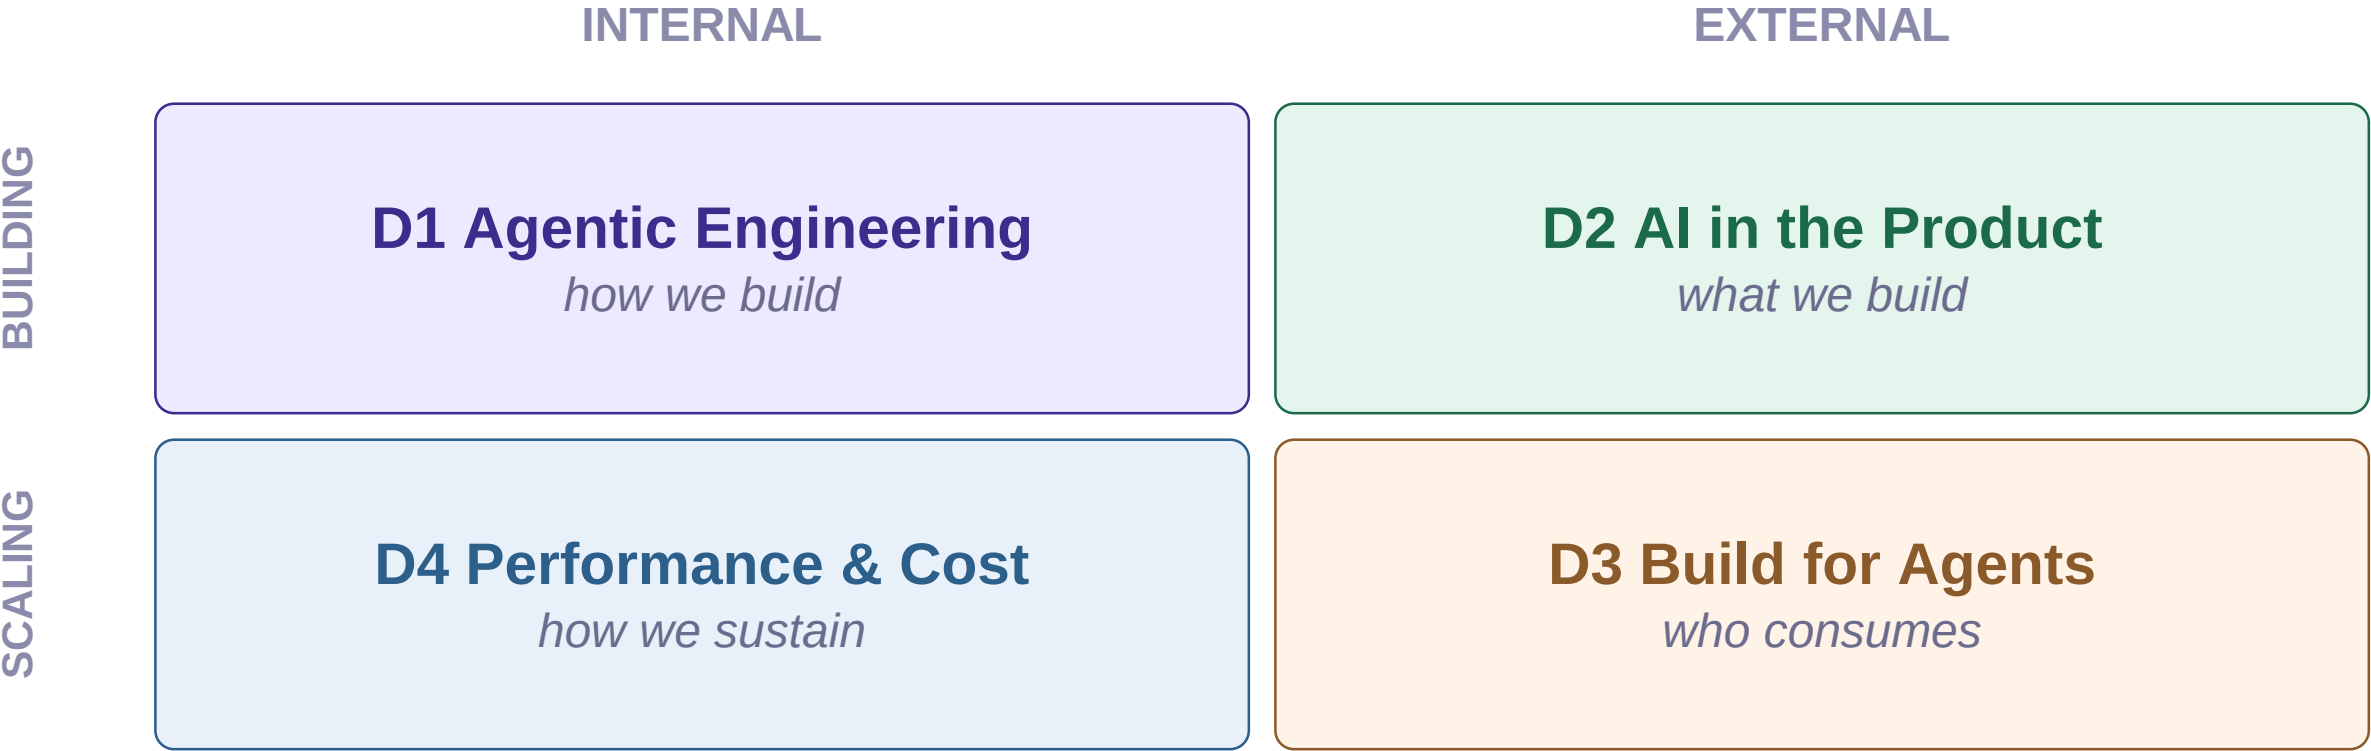

An update from Jess

Product & Engineering Update

Product and Engineering Vision

Four dimensions that define how we build, what we ship, and how we scale in the age of agentic product engineering.

1. Agentic Engineering

Engineers evolve from writing code to orchestrating AI agents in an AI-native architecture and pipeline.

2. AI in the Product

Static forms give way to conversational interfaces, generated UIs, and embedded agents.

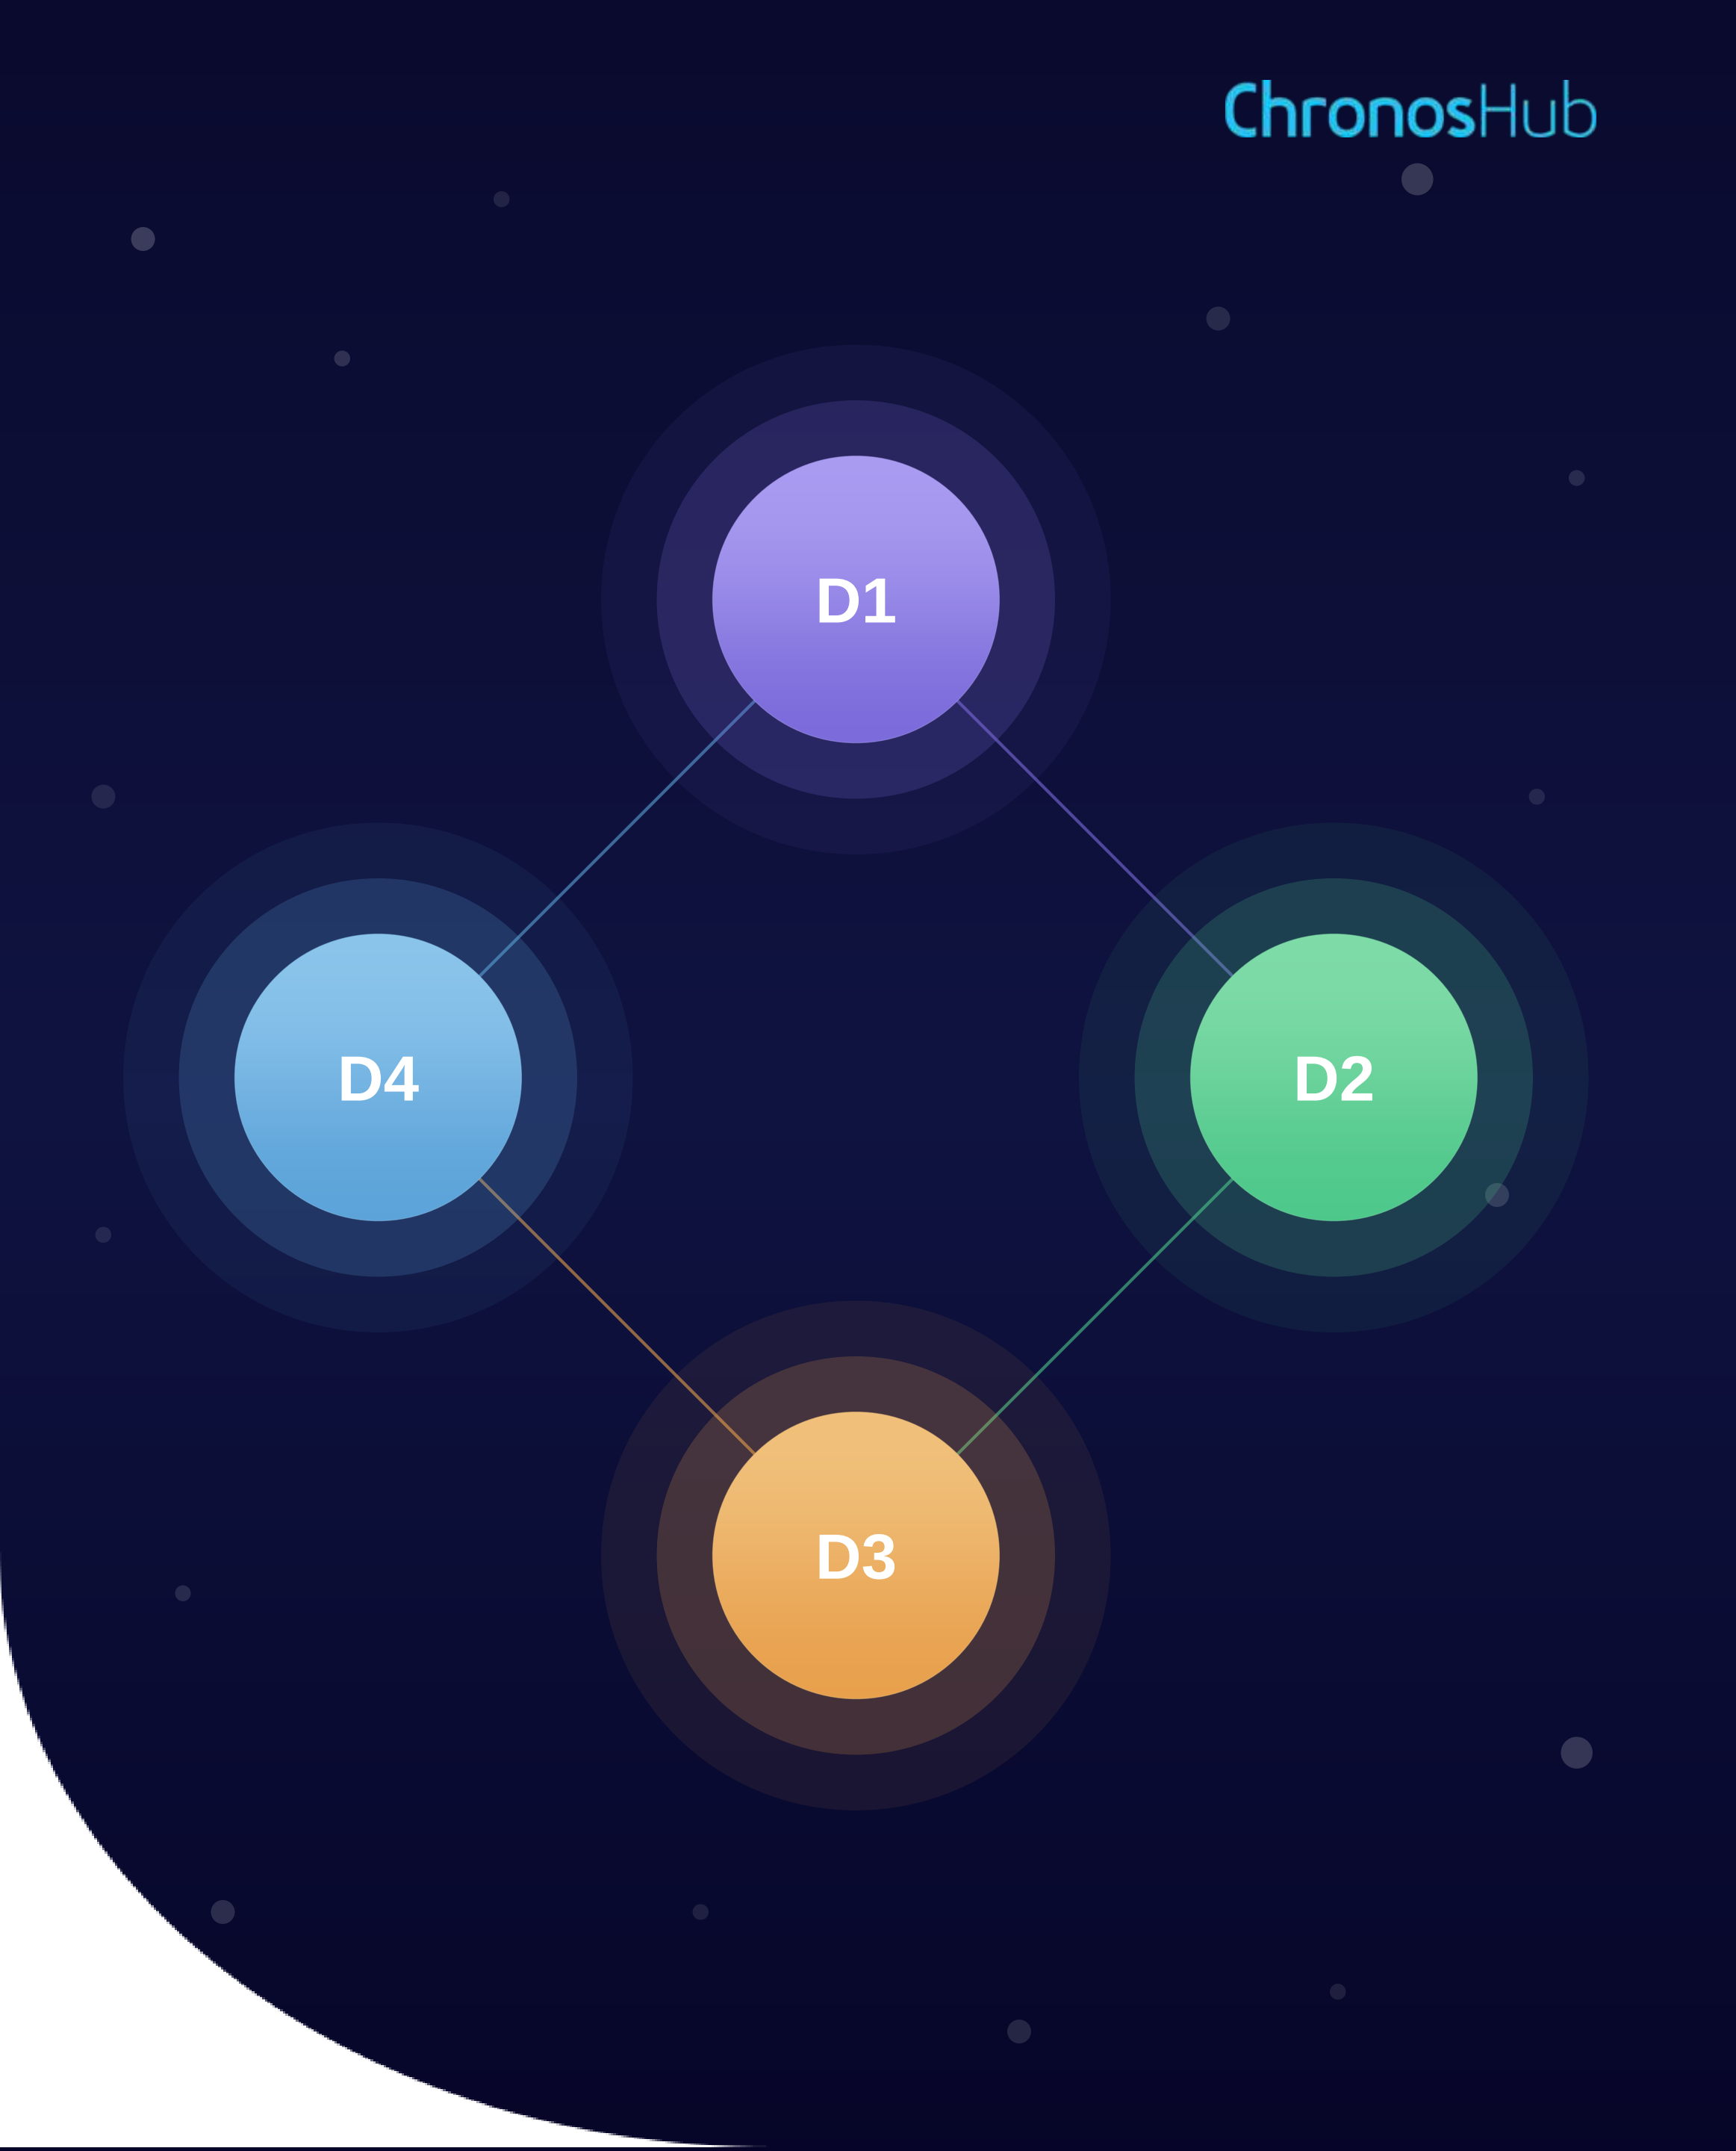

3. Build for Agents

Products serve AI agents as first-class consumers via interoperability protocols.

4. Performance & Cost

Agent traffic amplifies load 10–100×. Right-sized infra delivers 10× scale at fraction of cost.

Our platforms are the infrastructure through which research reaches society. As AI agents reshape every layer of software, these four dimensions determine whether we keep fulfilling that mission — faster, broader, and sustainable.

Short Term

Next Three Months

Task

- ☐ Develop 24-month agentic engineering strategy
- ☐ Complete current commercial commitments
- ☐ Hire Chief Architect and establish strategy momentum
- ☐ Hire and establish SRE function
- ☐ Hire to capacity (Force Multiplying Agentic Engineers)
- ☐ Product & Engineering structuring
- ☐ Implement new release process
- ☐ Roll out Claude Code and company-wide FrontierHub
- ☐ Outline post-acceptance architecture

The Economics and Mitigations of the Vision

--	--	--

INTRODUCING

FrontierHub

Our cross-functional AI working group — inspired by the Frontier Firm concept from Microsoft & Harvard D³

- AI tools & workflows for every department
- Making agentic engineering a cross-company win
- Sharing learnings & best practices across teams
- Bi-weekly cadence: blockers, opportunities, AI wins

MEMBERS

Martin Executive Sponsor, P&E

Alexandra Chair, Engineering

Marjorie Product

Christel Ops & HR

Kristín Commercial

Andrew Marketing

Andreas Marketing

Kent Commercial

Shehab Customer Care

WELCOME!

Dannie Walden joins as Chief Architect

- Owns our overall technical direction
- Two tracks: production at scale + fast prototyping
- Setting the reference architecture(s)
- Leading our Agentic Engineering approach
- Has an RTX 5090 card... 🎮

Commercial & Marketing Updates

Marketing update

- Self-guided tours of institutional product are finalized and will be added to the website asap. Publisher guides are in the works.
 - *Sales collateral*
 - *Website: Easier understanding of the product*
- Progress on core assests (presentations & onepagers) in collaboration with Product & Sales.
- Working on microsite to validate Early Adopters Program with Aries.
- Working on press planning for Aries and IEEE.
- Webinar series planning on pre-submission checks in collaboration with Anthony, Kent, and partners.
- The Emerald case study has been selected for promotion through paid LinkedIn ads to test a range hypoteheses.

ChronosHub

Submissions by ChronosHub

ChronosHub automates your manuscript submission workflow with AI. Data extraction, validation, and compliance checks happen upfront. Authors get a faster experience and you get cleaner metadata.

Selected Journal

Annals of Integrative Environmental Science
Deputy Editor: Lisa O'Connor
6.8 Days to First Response*
3.4 CiteScore
4.3 Two-Year Impact Factor
Data as of 18 Jun 2025
* Measurements in median days

Manuscript Type

Select the type of your manuscript.

Manuscript Type*

Article

File Upload

Upload your files and choose the appropriate designation for each file. Upload the manuscript file as a Word document (.docx format) to run a scan of the file and pre-fill the form based on the information from the file.

Give authors confidence

Clear requirements and upfront charges help your authors submit right the first time.

Catch issues early

Error flagging and metadata validation means less clean-up for your teams later.

Configure each journal

Customize submission flows and fields to match every publication's requirements.

All your submission workflows supported

Original New manuscript submissions.	Transfer Manuscripts moving between journals.	Invited Solicited submissions.
Revision Revised manuscripts responding to peer review.	Resubmission Resubmissions following rejections or withdrawals.	Unsubmission Let authors make edits to their submission.

A simple step-by-step process

ChronosHub has helped us get submissions down to six minutes in many cases. Getting better metadata feeds into our peer review than ever before."

Submissions Director, American Society for Microbiology

Marketing update

Conferences

- Romy will be at UKSG end of March.
- STM conference in DC.
- Poster presentation for SSP about ACS publishing Center accepted.
- Breakout session at SPP about the integration framework accepted.

- Joint preview session accepted.
- Invited to speak at their break out session.
- Looking into doing joint event at SSP.

How we write

We have a refreshed "How we write" guide. It replaces our old Tone of Voice and Style Guide. You can find it here: [How we write guide.pptx](#)

It's designed to help you make consistent choices around tone and grammar in external communication. It's most relevant for Marketing and Commercial, but if your role involves writing to customers, prospects, or partners, it should be helpful too.

It includes:

- A tone of voice checklist

- A style guide (the grammar rules we follow)

- Industry terminology

A skill for **Claude**.

WELCOME!

Nancy Robers joins as

Customer Success Manager - Publishers

- Currently with CCC as Strategic Account Manager
- Joins us mid May
- Will be responsible for our existing Publisher Customers
- Free up some time for Chuck to do business development
- Help define and shape our Customer Success function together with Laura

Commercial update from

ACS visit (Columbus)

"Really impressed with our progress over the past 12 months"

ACS - Working session with the the board

- Activating the board as a growth engine, not just governance
- Joint tracks launched:
Prospect mapping & access, voice of customer & proof points, access to market intelligence and ABM tools and conferences & market presence

IEEE

- Planned NY meeting did not take place (thanks British Airways)
- Concerns driven by roadmap changes
- Overall commitment remains intact - IEEE remains fully invested with us

Partner update

What I learned so far...

- Publishers operate on **legacy technology**, creating day-to-day friction
- A small number of dominant platforms limit choice and flexibility
- Gap in the ecosystem that we are well positioned to address

Opportunity

- Partners can play a meaningful role in scaling our growth - mapping in progress
- Our ownership model brings credibility beyond commercial incentives - focused on long-term value
- Potential to build **infrastructure-level positioning** that others have not pursued

What's next

- Deepen understanding of market dynamics before locking direction
- Map how each ecosystem player contributes to us
- Initiate targeted conversations to define next steps with partners

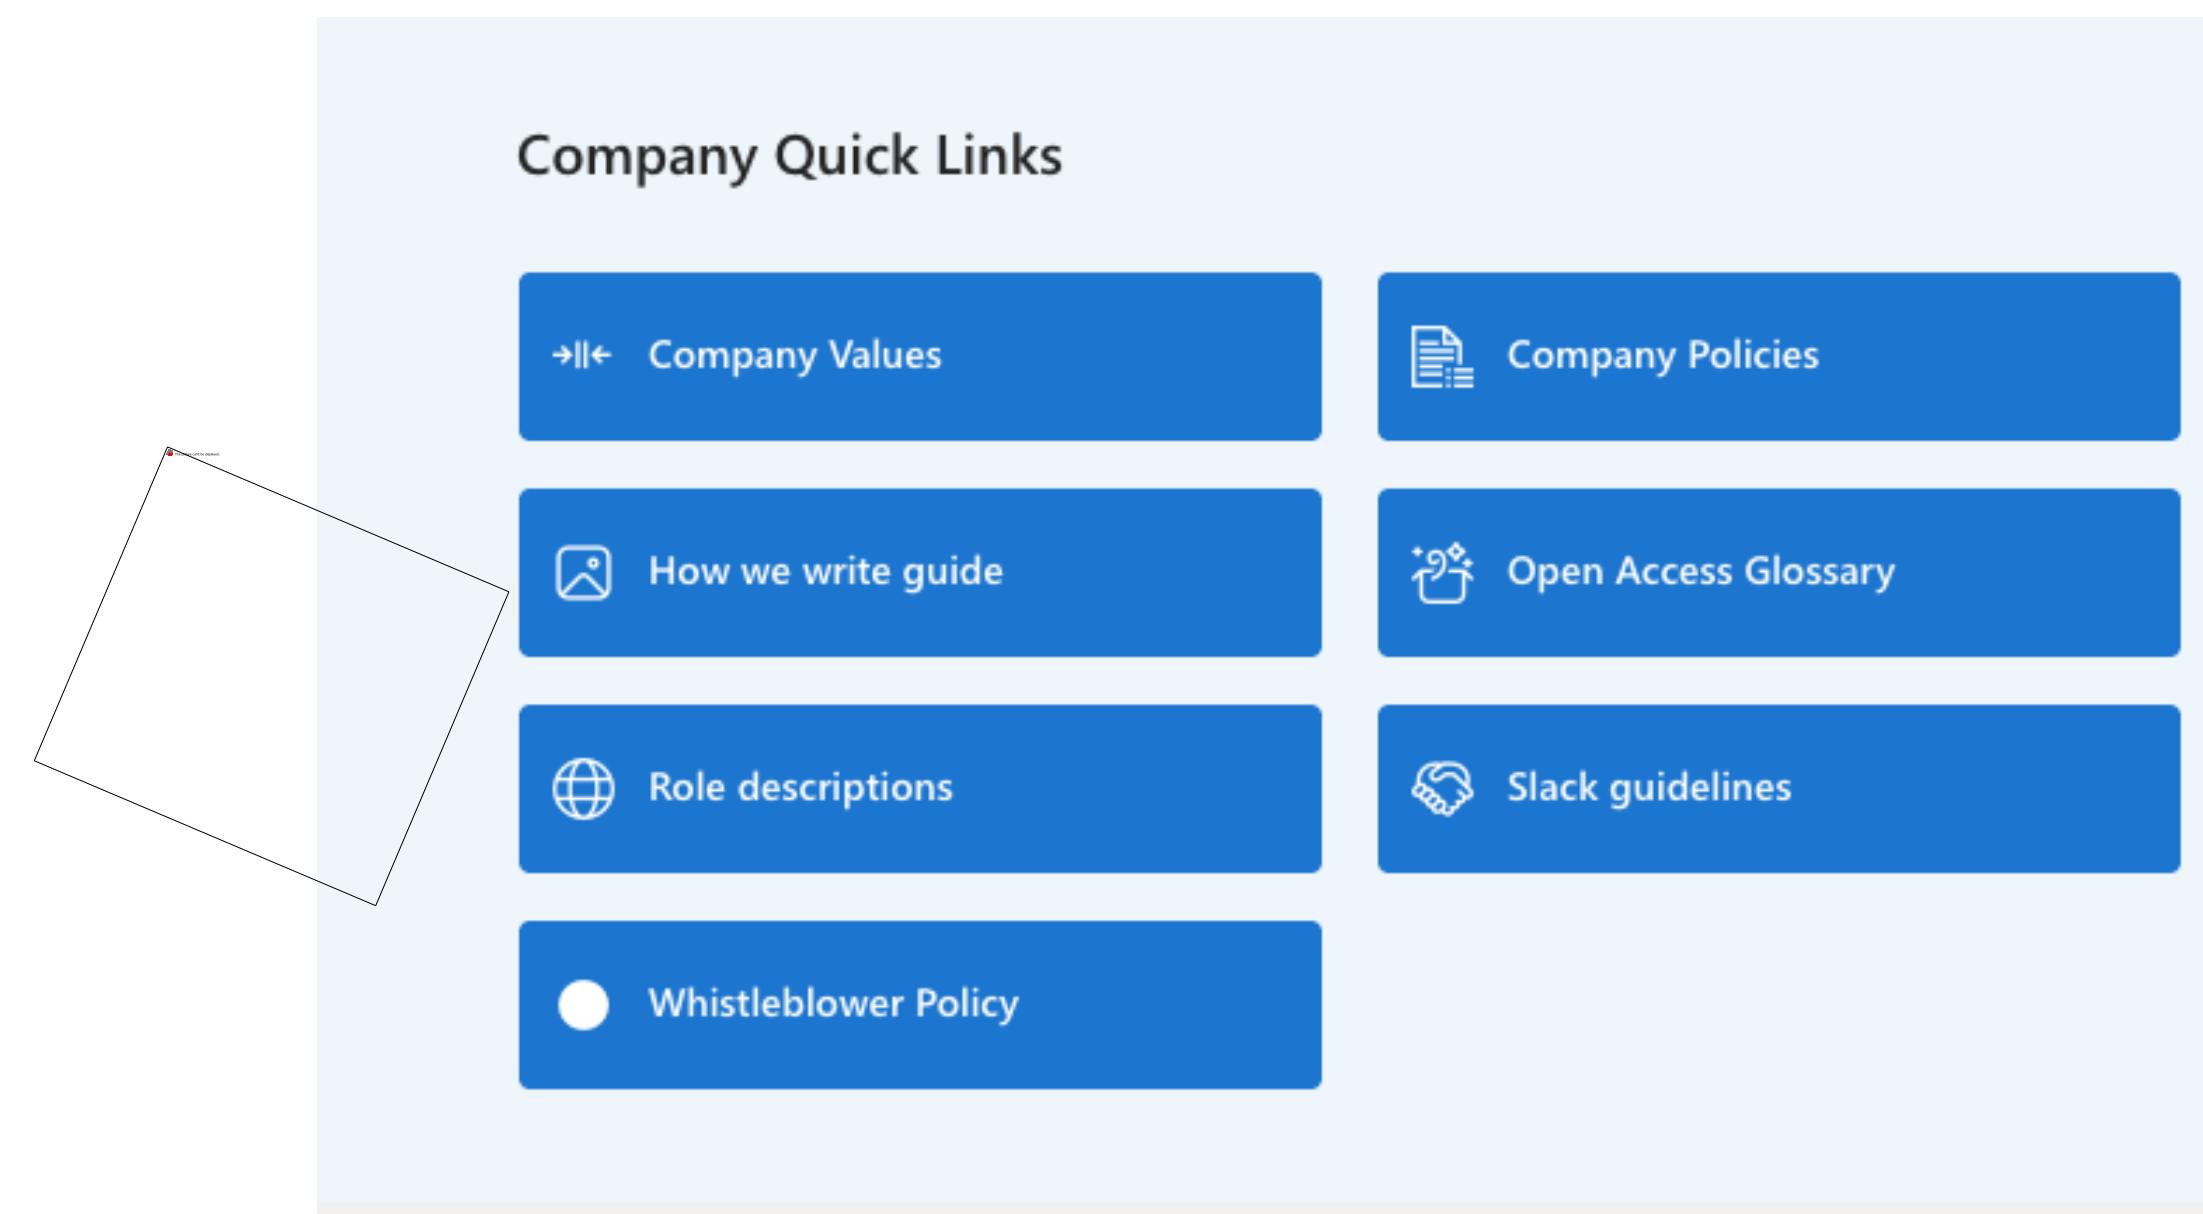

People & Culture Updates

A bit of admin stuff...

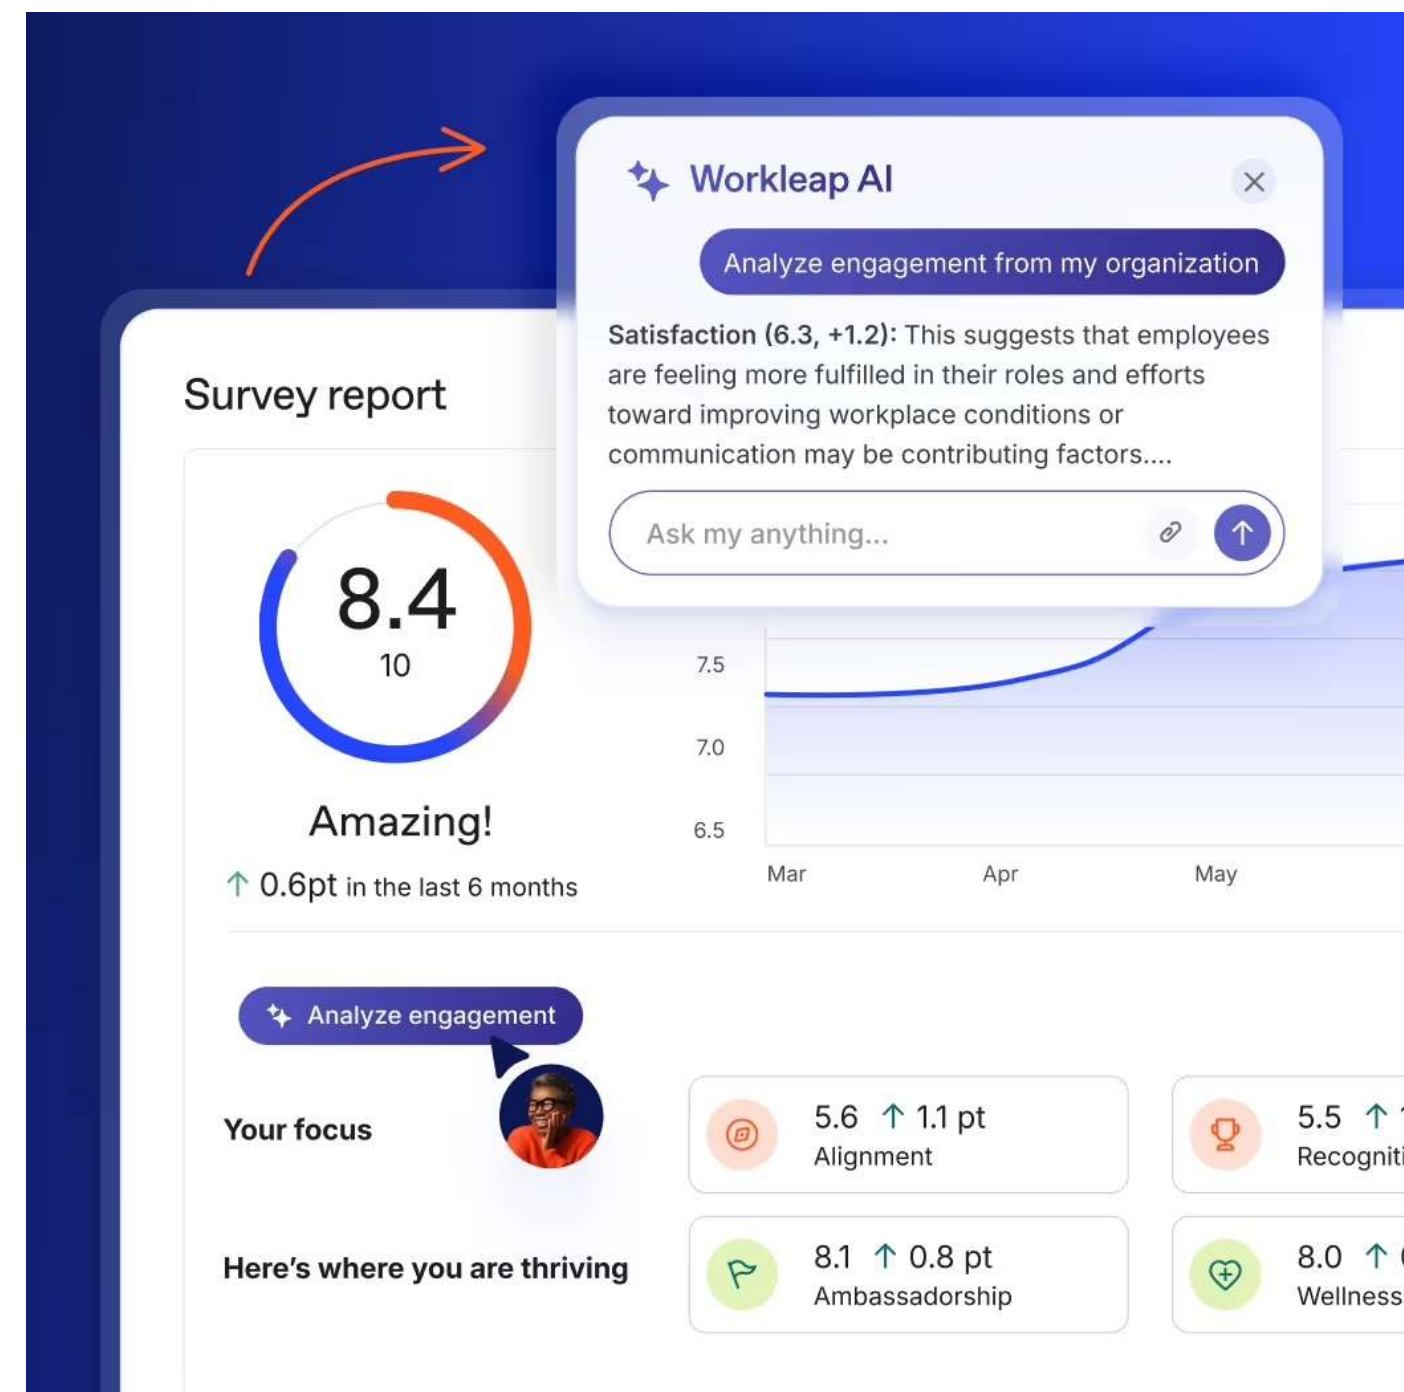

Role descriptions – find them [here](#) or via the Intranet

Read through:

- [Travel and Expense Policy](#)

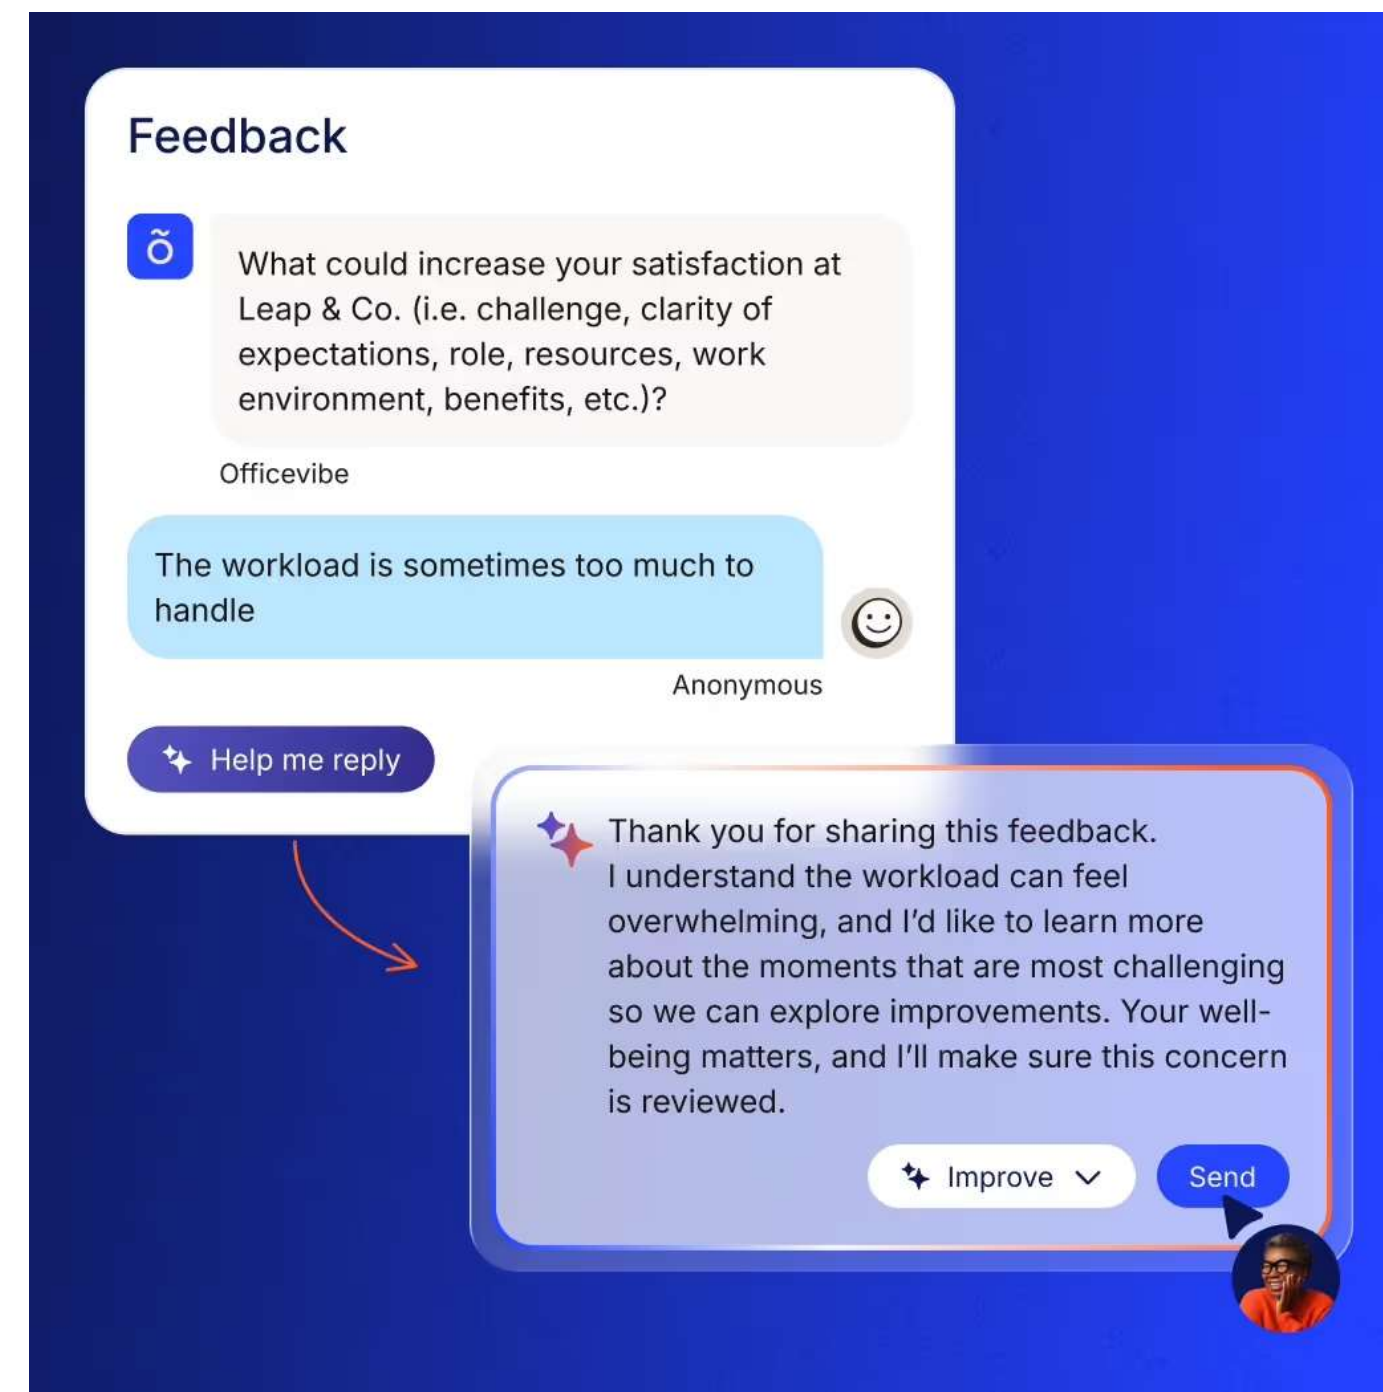

Officevibe

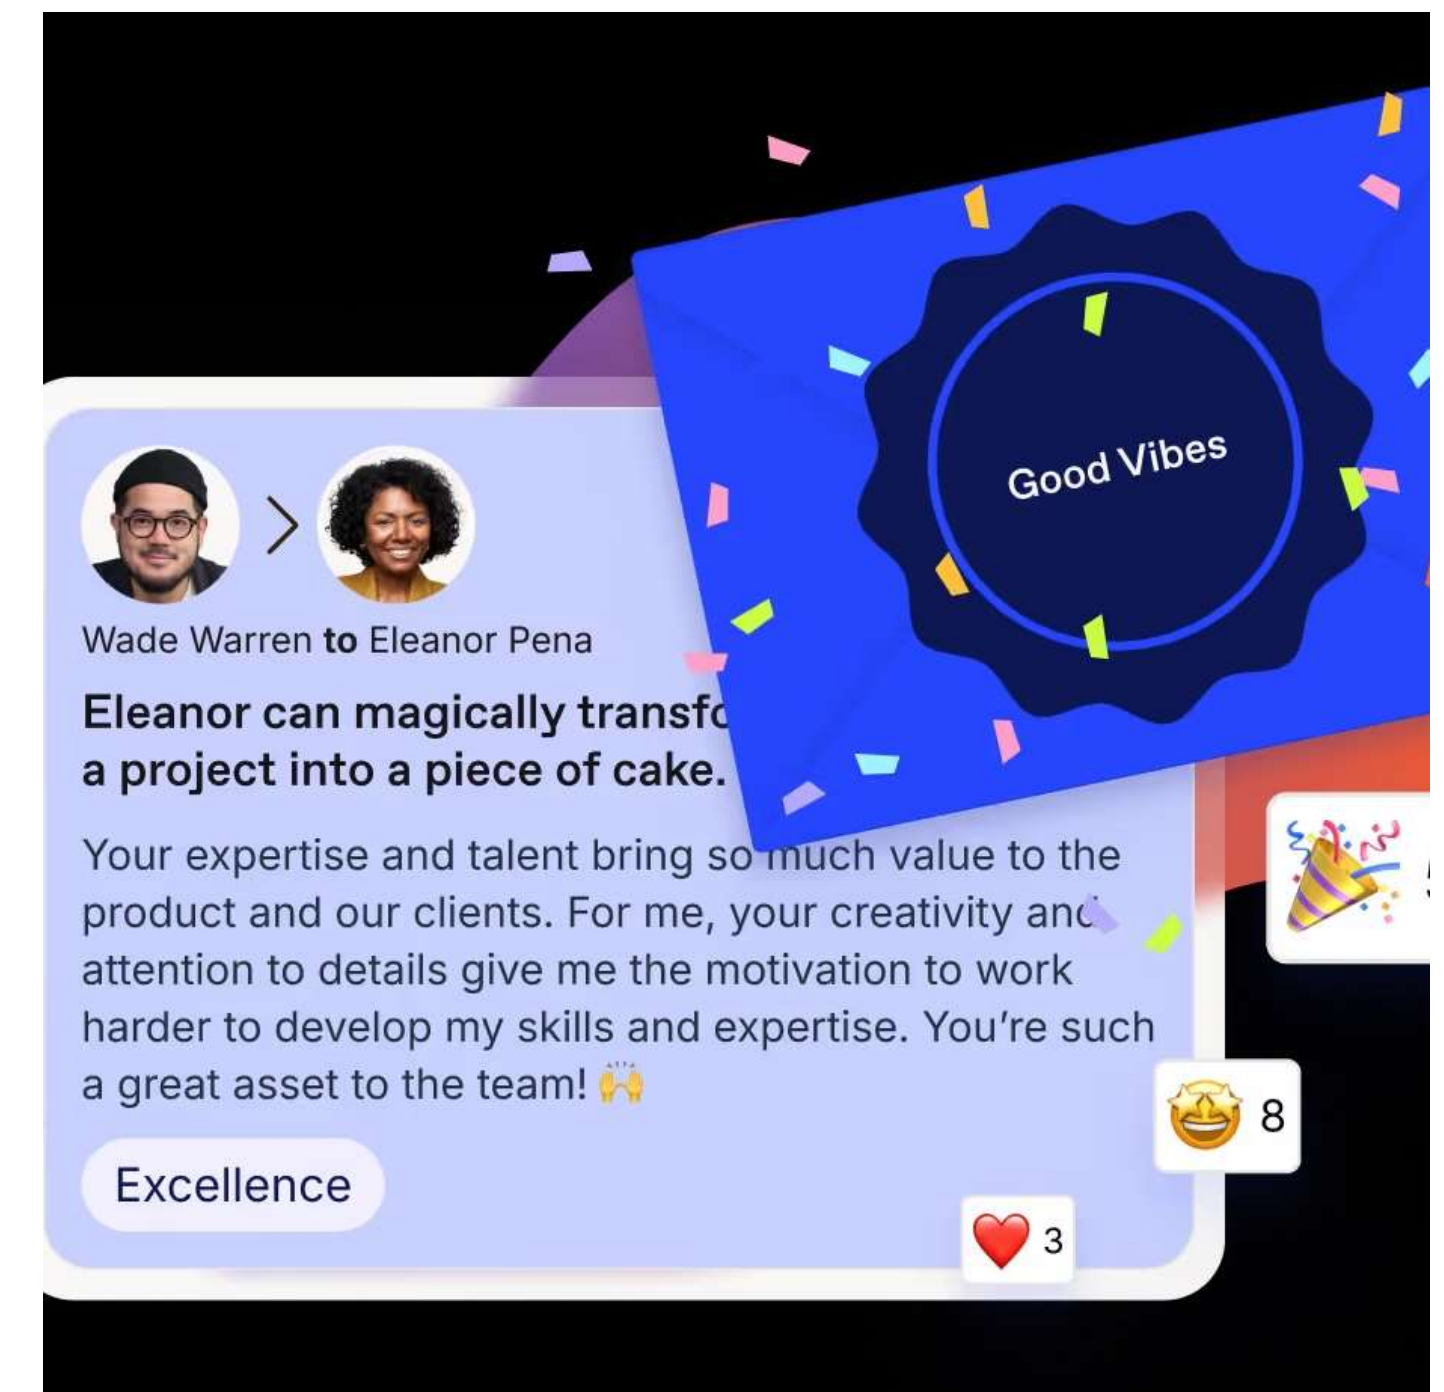

Survey

Pre-set questions, anonymous. Scores based on team input.

Feedback

Comments to survey questions or open feedback. You choose whether you're anonymous or not.

Good Vibes

Give public praise to any colleague. Can use templates/prompts or write from scratch.

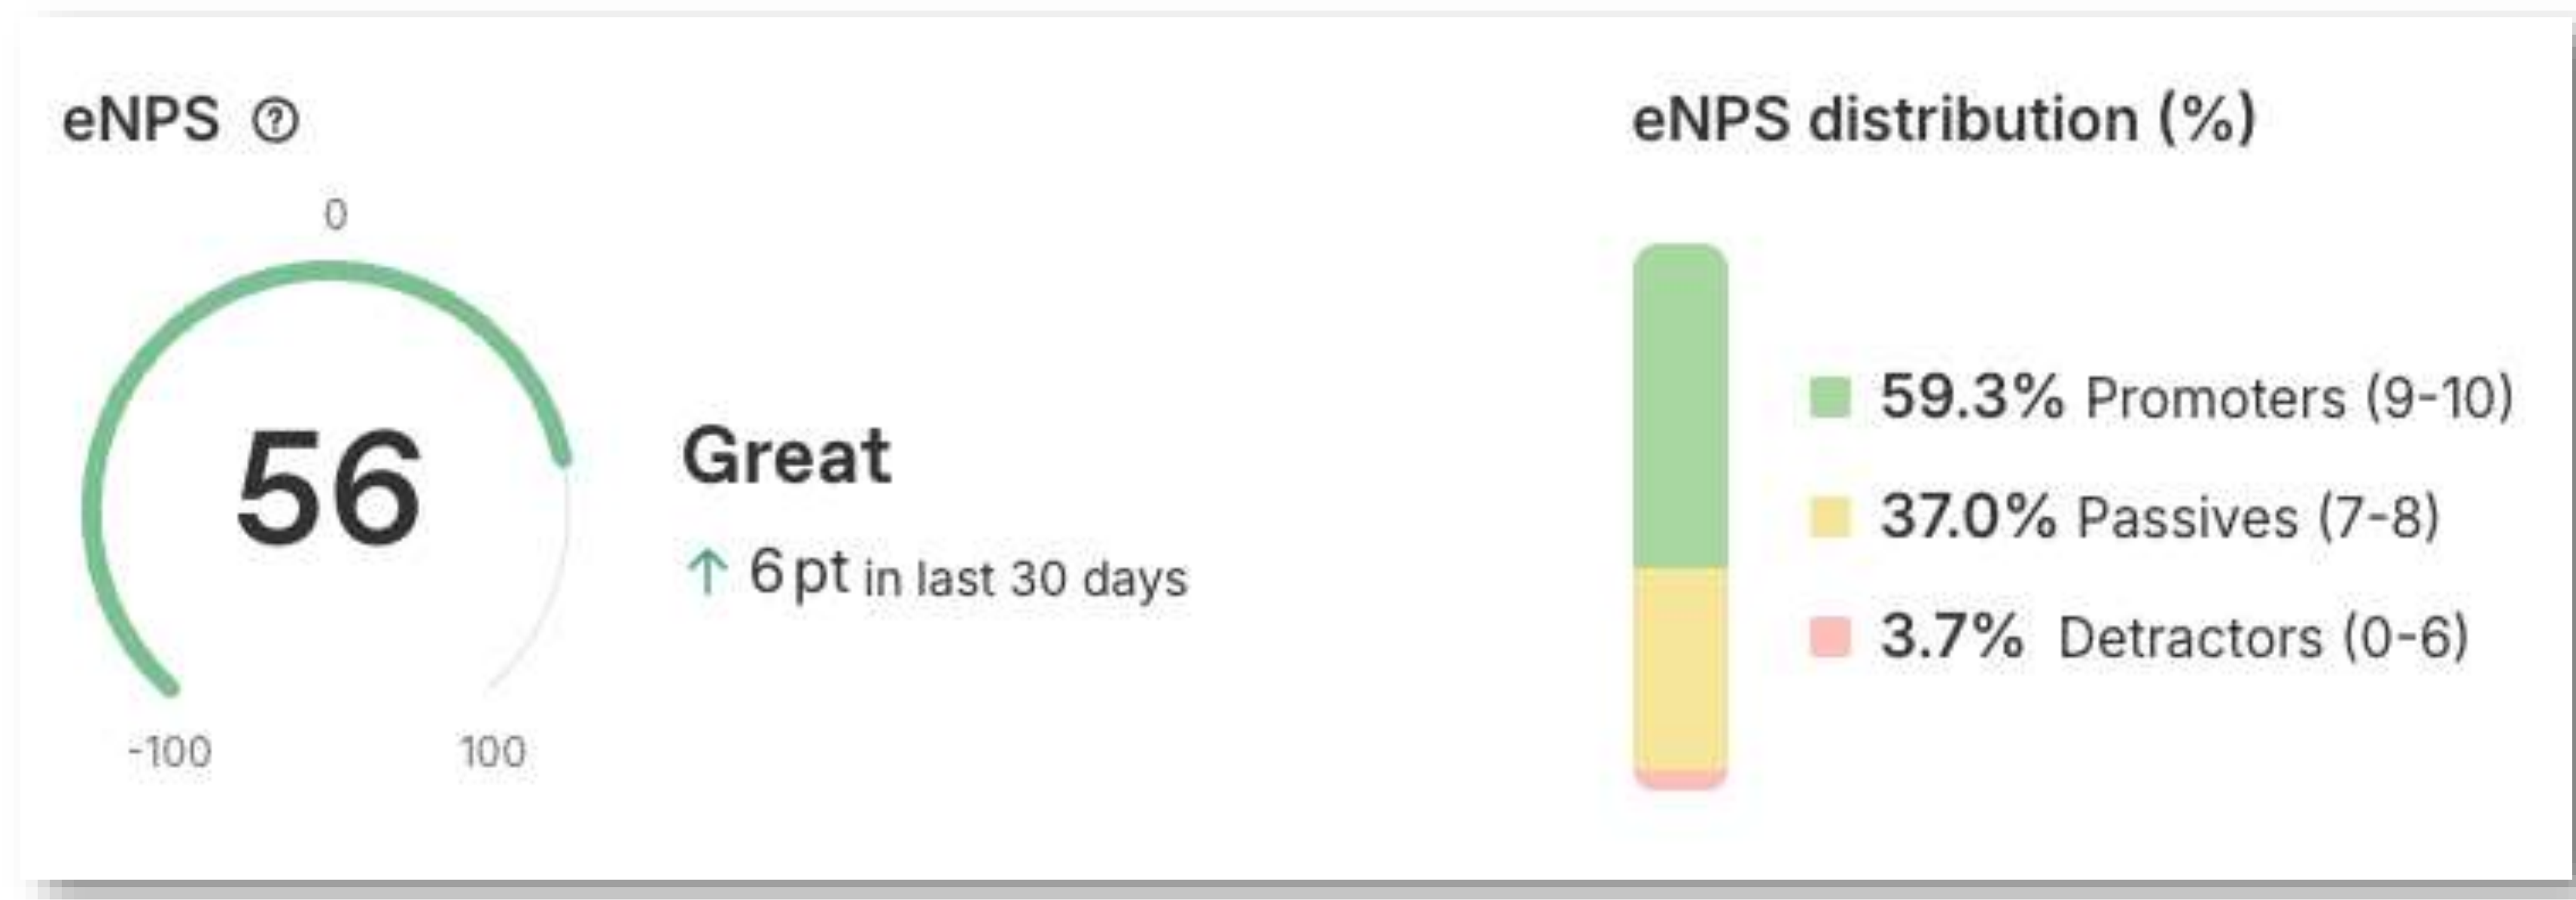

Officevibe surveys

- Sent out every 2 weeks, 10 questions per round.
- Pre-set questions that rotate so takes typically around 10 weeks to go through all questions.
- Scores are visible for 3+ responses per team

NB: For new teams, it'll take around 3 months to get consistent data.

What is a "good" score?

Work Environment Organization (WEO)

What is WEO?

WEO (Arbejdsmiljøorganisation) is an internal working group within a company, focused on maintaining a good physical and psychological environment.
At CH's size, it is also a legal requirement.

What does the WEO do?

- Act as a point of contact for anyone with a concern about the physical or psychological work environment
- Prepare and run the workplace risk assessment (APV)
- Attend WEO meetings to discuss work environment topics
- Flag anything that needs attention to People & Culture and/or leadership

The WEO setup

WEO at ChronosHub

Made up of one employer representative (management) and two work environment representatives (elected).

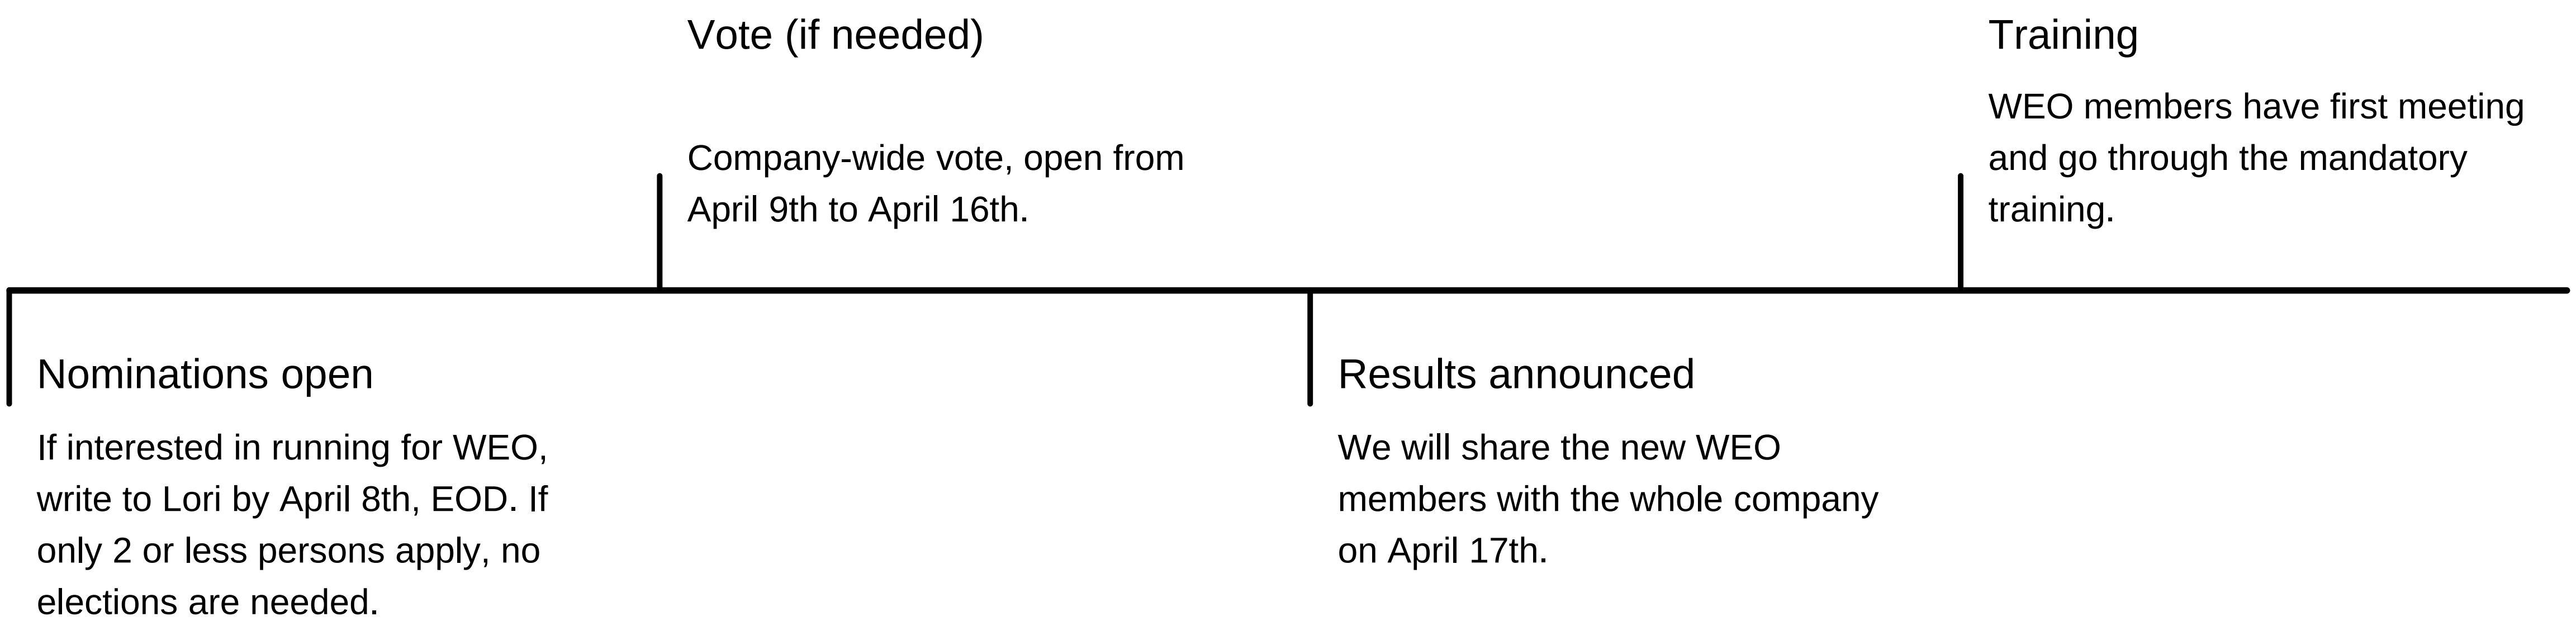

Who can be a work environment representative?

Any employee without manager responsibilities can run to become a work environment representative.

How do I become a work environment representative?

You need to be elected by your colleagues. If elected, you serve for a term of 2 years.

The process

Why become a work environment representative?

- Training course on physical and psychological safety in the workplace
- Take an active part in helping make the work environment at CH even better
- Gain experience in working with the health & safety area, running APV, etc

Board of Directors Update

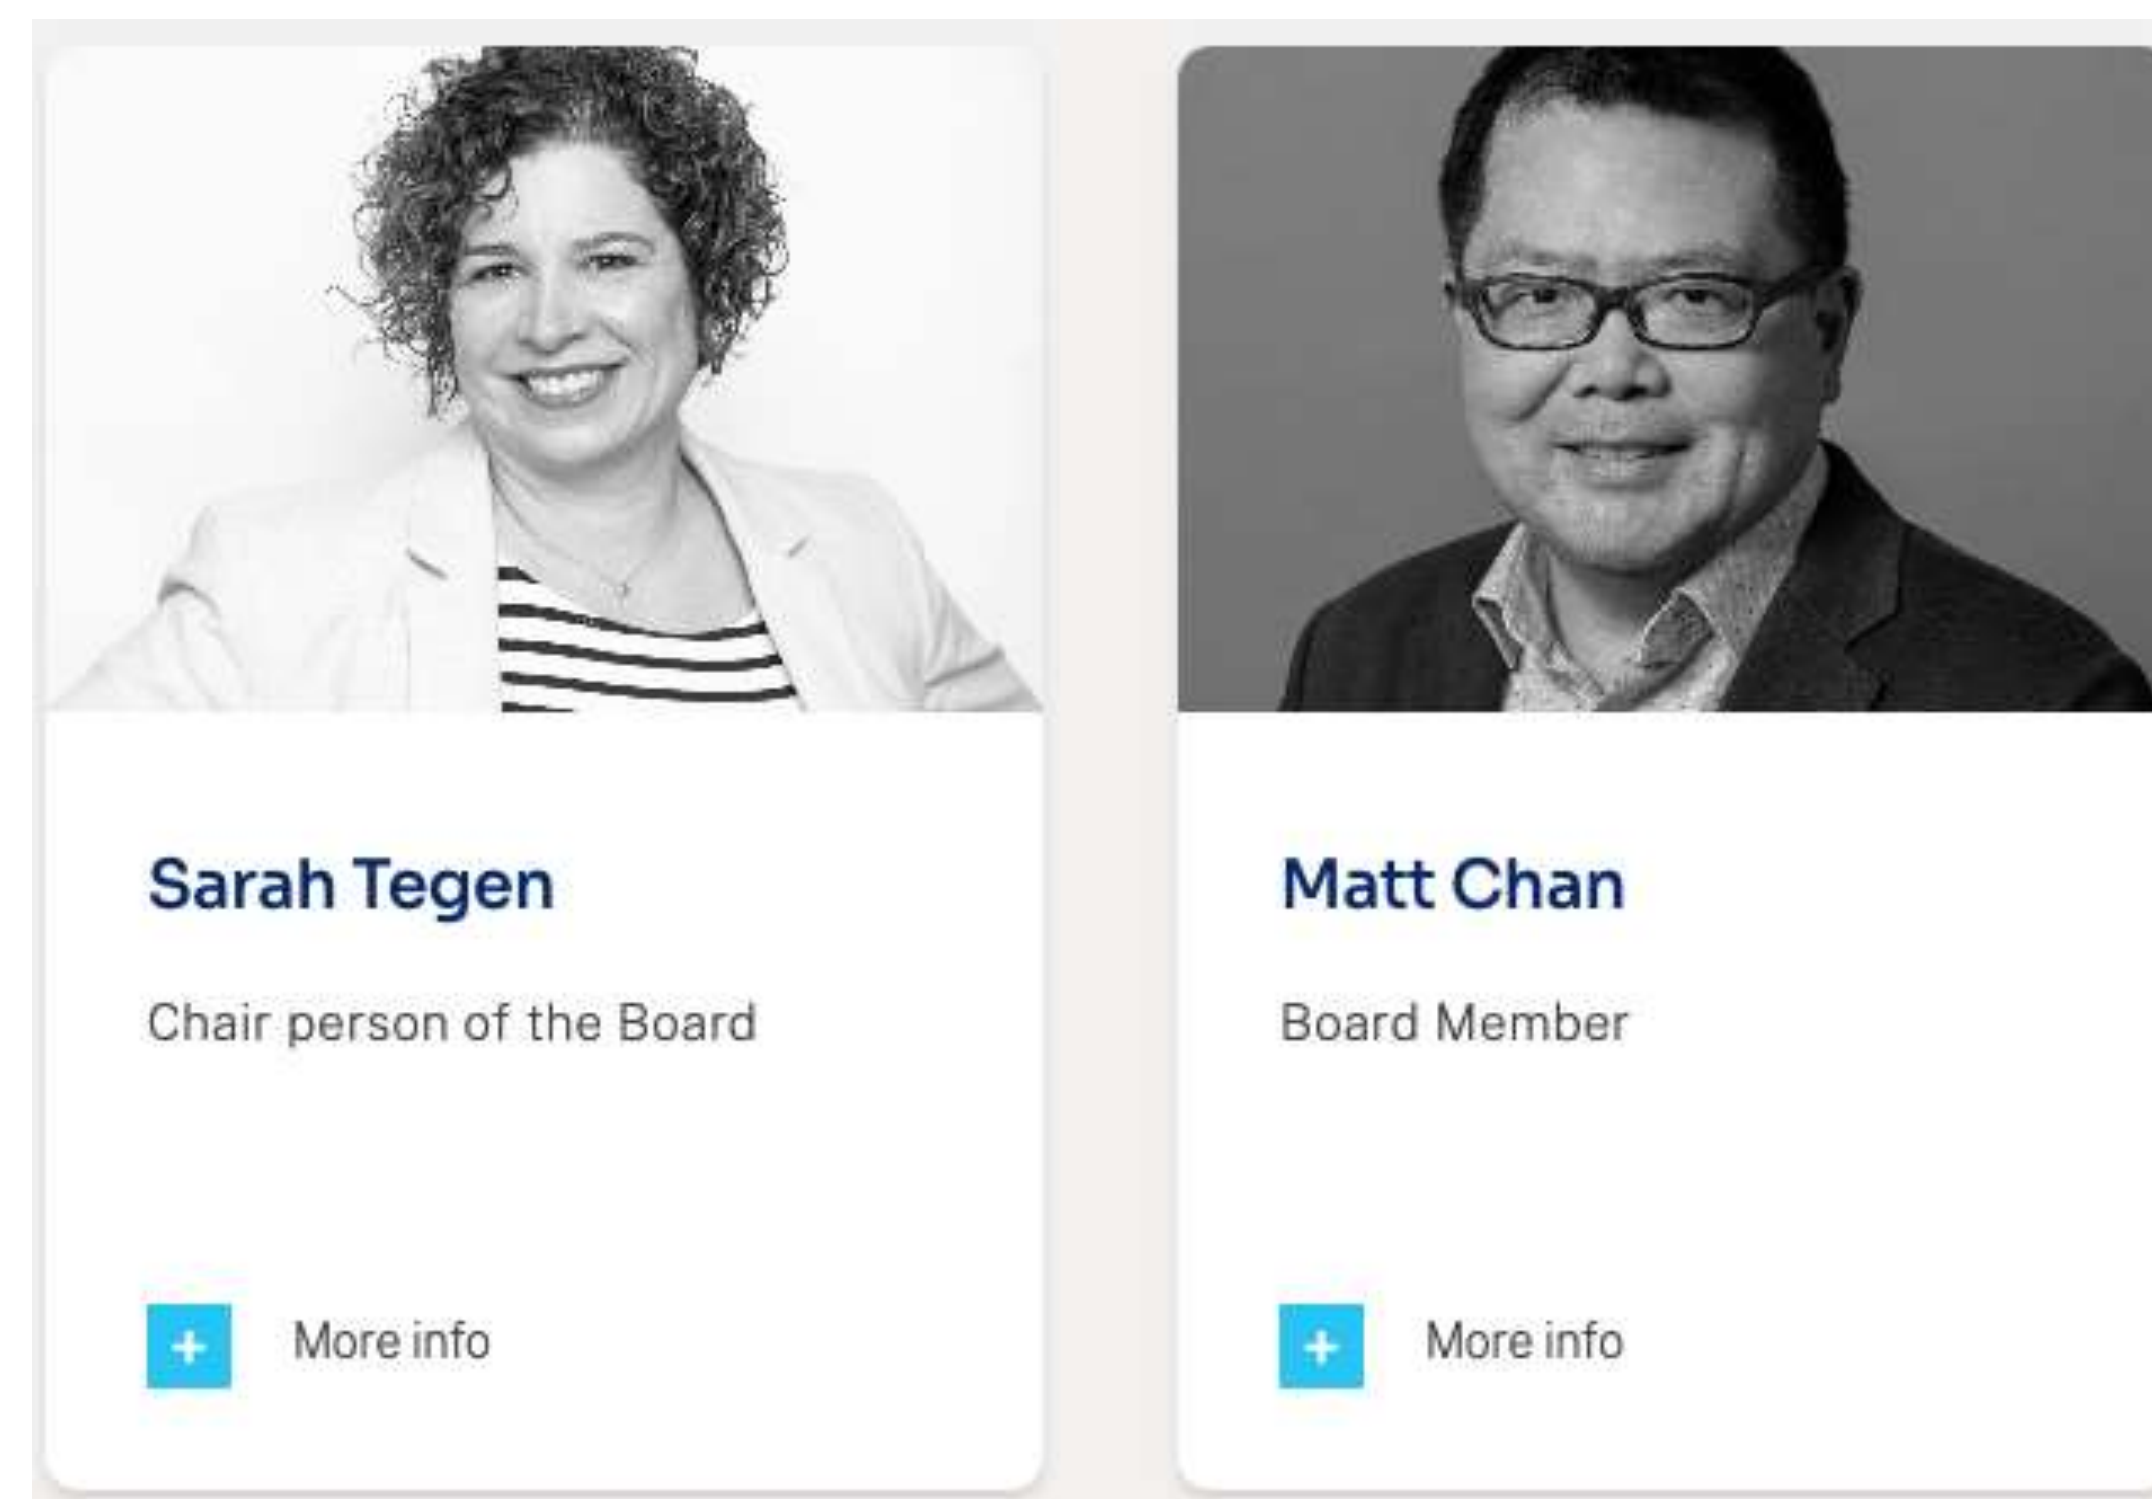

New Board Composition

Ralph Youngen steps down from the board serving as chair since 2023

Sarah Tegen - ACS SVP Publishing appointed chair of the board

Matt Chan – ACS VP of Marketing & Product Joins the board

External board member will be appointed during 2026

Any questions?

Thank you!

Highlight

Use this to highlight
a single important thing.

Highlight

Use this to highlight
a single important thing.

Highlight

Use this to highlight
a single important thing.

The *main highlight* slide

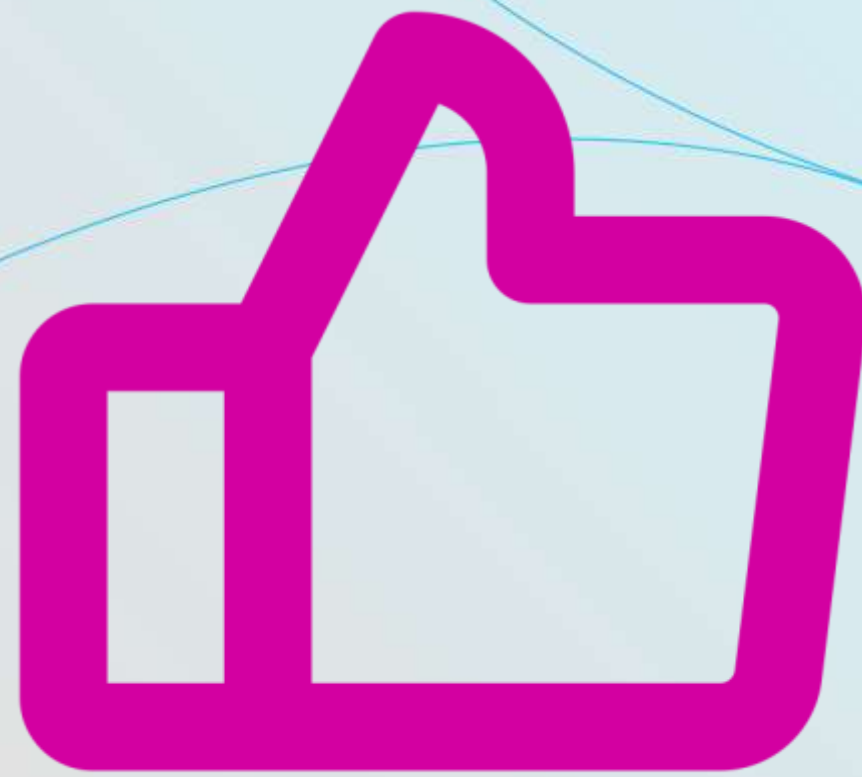

87%

Add a short description
or caption if relevant.

Main highlight

Use this to highlight a single important thing—a key metric, objective, or insight. Add a heading and a description to provide context. Keep the heading simple and the description brief to emphasize the highlight.

Add a short description
or caption if relevant.

Main highlight

Use this to highlight a single important thing—a key metric, objective, or insight. Add a heading and a description to provide context. Keep the heading simple and the description brief to emphasize the highlight.

Main highlights

First item

Use this to illustrate values or principles.

Second item

Name each item in the heading text fields.

Third item

Describe each item in the body text fields.

Main highlights

First item

Use this to illustrate values
or principles.

Second item

Name each item in
the heading text fields.

Third item

Describe each item in
the body text fields.

The ***text*** slide

Text content

Use this to outline plans, summarize information, or condense definitions. Use simple terms or short phrases to convey the message effectively. Style the text to emphasize important points and control the space around it to categorize the content. Use complementary color themes and consistent scale patterns to enable rather than to distract. Recommend minimal use of this slide.

The ***list*** slide

List of items

First thing

Use this to communicate a category, class, collection, or group of items. Name each item in the heading field, and describe them in the body field.

Second thing

Write concise and clear text to make the information easier to remember. Add line breaks based on speech flow to make the information easier to absorb.

Third thing

Keep the amount of content in the items equivalent to maintain visual balance. Keep the distance between the items consistent to provide visual order.

List of items

Colors

Use alternative object colors to emphasize and categorize things. Use three or less colors per slide to not weaken emphasis and dilute categorization. Avoid allowing the alternative colors dominate the primary color on a slide.

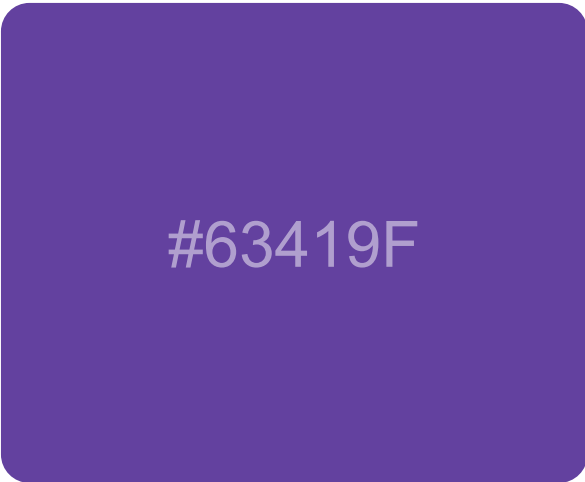

Marine

Use this color for subtle accent text, such as significant words and terms as parts of longer phrases and sentences.

Indigo

Use this color for graphical sections, such as backgrounds or containers. Use also for text on lighter backgrounds to soften the contrast.

Violet

Use this color for subtle accent text, such as significant words and terms as parts of longer phrases and sentences.

Ivory

Use this color for graphical sections, such as backgrounds or containers. Use also for text on darker backgrounds to soften the contrast.

Black

Use this color for majority of the text, including titles, headings, quotes, main bodies, descriptions, captions, annotations, and others.

White

Use this color for background and container fills with lighter content, or foreground and element strokes with darker content.

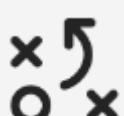

Icons

Use icons that relate to the meaning of a word, term, phrase, or sentence to enhance the message. Use icons that are simple to ensure clarity and use them sparingly to avoid clutter.
